For Scibo I suggested

1) Loaded - oswald - another shooter on fifth in great hurry magnification but inaccurate shot extremely

Bob Hunt 9/25/78 Tape 2 side 2 first witness this side, says Hughes film goes to 5 seconds hears first shot and shows nobody on window
Dillard shows no human "with couple seconds of last shot"
Hunt about #5 anticipated human on Wells #5

PM 9/25 - formerly did more later immediately after fatal shot
Compare with Baker - Truly - no change of getting out of bldg. Delay eliminates possibility it was Oswald.
